Abstract Submission

Participants are requested to submit abstracts online to the Congress Secretariat from Monday, August 31, 2015 to Friday, October 23, 2015, 12:00 CET+1. During the submission process, authors may indicate their preferred presentation type (free paper or poster presentation). The final decision in regards to the presentation type, however, will be taken by the Scientific Committee. Submission of an abstract constitutes a commitment by the author to present at the congress, if accepted.

Abstracts may be submitted in English only. Please make sure that special characters and symbols are inserted correctly through the toolbar provided. Authors will be able to draft their abstracts online and may return to the site to edit them, if necessary. Authors are free to finalise their texts and submit their abstracts at any time before Friday, October 23, 2015, 12:00 CET+1. No changes can be made after this deadline. Presenter changes will not be possible after this deadline.

Notification of acceptance and information regarding presentations will be forwarded by e-mail to the authors immediately after the reviewing process, the latest by Friday, December 18, 2015.

If an abstract is accepted, it is mandatory for the presenting author to attend the congress.

Modalities of free paper and poster presentations will be sent with the notification of acceptance. Accepted posters will be accessible to delegates in the poster exhibition area.

For an abstract to be included in the final scientific programme, the presenting author is required to register for the congress and to settle payment as soon as the notification of abstract acceptance has been received, the latest by Friday, January 15, 2016, 12:00 CET+1.

By submitting an abstract, copyrights are transmitted automatically to the European Society for Trauma and Emergency Surgery. Abstracts will be published in a supplement of the European Journal of Trauma and Emergency Surgery exactly as they have been received.
