

Orthopaedic and Traumatology Association of Bosnia and Herzegovina

History:

Orthopaedic and Traumatology Surgeons Association of Bosnia and Herzegovina was founded 2004 with the residency at the Clinic for Orthopaedics and Traumatology, Clinical Center University Sarajevo.

Aims of the association :

To promote excellence in patient care, research, and education.

To provide a comprehensive and integrated orthopaedic program for patients, students, residents and fellows.

To promote and maintain the highest possible personal conduct and professional standards for the purpose of providing high quality care.

Development through the years :

In the last 15 years the association expanded to the entire state and includes all medical centers with continuous annual meetings.
