

The **Emergency Surgery Course®** is a joint initiative of the European Society for Trauma & Emergency Surgery (ESTES) and the American Association for the Surgery of Trauma (AAST). ESC® aims to aid surgeons in non-trauma emergency surgery by providing the know-how and the decision-making skills necessary for daily practice. The course consists of theoretical sessions, case scenarios and state of the art videos. The course is especially designed in an interactive format from the beginning till the end.

The course is divided into two parts:

- the first consists in several theoretical, didactic sessions, designed to provide the basic steps for adequate and timely diagnostic and decision-making;
- the second, video-based, designed to provide tips and tricks to improve the skills of the general surgeon to deal with surgical emergencies.

In sum, the ESC has the following goals:

- Confront surgeons with every day and problematic emergency scenarios
- Provide concrete answers and guidelines for questions emerging from these situations
- Hone the decision-making skills necessary to manage preoperative, intra-operative and post-operative issues

The participants will:

- Improve clinical skills
- Establish priorities in diagnosis and treatment
- Recognize the evidence that supports decisions and interventions
- See real-life case presentations as examples
- Familiarize themselves with important diagnostic tests and therapeutic maneuvers

COURSE VENUE:

Centro di Simulazione
Università degli Studi di Trieste
Strada di Fiume 447 - Ospedale di Cattinara
34149, Trieste, Italy

INFO

The Course will be limited to 24 participants

Course language: English with support in Italian

Time zone: Central Europe Summer Time

Recommended reading: Emergency Surgery Course (ESC®) Manual - The Official ESTES/AAST Guide - Ed.: Springer

Information: Eliana Rispoli
E-Mail.: info@softitalia.net
081.19313816

Registration FEE: € 300 (for Residents and members of SICUT, ESTES and AAST: € 270)

Each student will receive a link for a pre-course test and an interactive eSyllabus that will contain the lectures of the course.
