Interdisciplinary Course

**Polytrauma Course
in Cooperation with ESTES**

May 5th and 6th, 2023

Course Vanue: will be announced

Welcome to Ljubljana

This Polytrauma Course (PTC) is an interdisciplinary course that aims to combine the knowledge of general surgeons, neurosurgeons, orthopedic trauma surgeons, intensivists, and emergency physicians. Moreover, this course covers the entire management of a polytraumatized patient (rescue, emergency room, ICU, ward, rehabilitation).

Polytrauma Course is a certified course led by an international group of experts. It includes lectures, case discussions, and practical exercises, depending on the modules selected the participant.

Some content can be downloaded on the App (both for iPhone and Android). The App provides a quick and compact overview of surgical knowledge helpful for the management of severely injured patients.

We hope that you enjoy the group teaching and discussions in one of our international courses.

Prof. Dr. med. Hans-Christoph Pape

Head of Trauma Department
University Hospital Zurich (USZ)
Switzerland

Program Day 1 (May, 5th, 2023)

12:00-12:20 Registration

12:20-12:30 Introduction - new structure, voting app, interactive cases - *Pape*

12:30-14:00 Session 1: General considerations and scoring

12:30-12:50 Initial diagnostic work-up (CT, X-Ray, FAST) - *Fattori*

12:50-13:10 Resuscitation strategies in polytrauma - *Teuben*

13:10-13:30 Polytrauma: It is a disease - *Balogh*

13:30-14:00 Case discussion / trauma bay - *All*

14:00-14:30 *Coffee*

14:30-16:00 Session 2: The Triade of Death

(non-surgical resuscitation)

14:30-14:50 European guidelines on management of major bleeding - *Komadina*

14:50-15:10 ROTEM diagnostics and treatment algorithms - *Jošt*

15:10-15:30 Role of REBOA in acute treatment - *Vrbovšek*

15:30-16:00 Case discussion /Life threatening conditions - *All*

- End Day 1 -

Polytrauma Course App

Program Day 2 (May, 6th, 2023)

08:00-09:30 Session 3: ICU Management

08:00-08:20 ICO Therapy: Has anything changed in strategies for ventilation, MOV, or sepsis - *Peralta*

08:20-08:40 Specifics of geriatric polytrauma - *Teuben*

08:40-09:00 Role anticoagulation in patients with brain injury - *Porčnik*

09:00-09:30 Case discussion/ICT management – *All*

09:30-10:00 *Coffee*

10:00-11:30 Session 4: Surgical priorities in multiple injured patients (surgical resuscitation)

10:00-10:15 Strategies and treatment of brain injuries – *Frenzel*

10:15-10:30 Strategies and treatment of thoracic injuries – *Vrbovšek*

10:30-10:45 Abdominal Injuries: Indications for surgery – *Simmen*

10:45-11:00 Penetrating in Thorax and Abdomen – *Achatz*

11:00-11:15 Indication for staged surgery - *Pape*

11:15-11:30 Case discussion – *All*

11:30-13:00 *Lunch*

13:00-14:30 Session 5: Surgical care of major injuries

13:00-13:20 Vascular injuries - *Hietbrink*

13:20-13:40 Management of pelvic injuries - *Mariani*

13:40-14:00 Management of spinal injuries - *Pape*

14:00-14:30 Case discussion – *All*

14:30-15:00 *Coffee*

15:00-16:30 Session 6: Reconstruction / Regeneration / Rehabilitation

15:00-15:20 Post-traumatic reconstructions of complex foot injuries - *Korobushkin*

15:20-15:40 Management of severe bone defects - *Cretnik*

15:40-16:00 Soft Tissue Management- *Jukema*

16:00-16:20 Amputation vs Recounstruction – *Bakota*

16:20-16:30 *General Outcome on Polytrauma* – *Halvachizadeh*

- End of the Course -
