

Preliminary Program
Emergency Surgery Course (ESC)

March 11-12, 2024

DEPARTMENT OF SURGERY GRAZ

Endorsement requested

European Society for Trauma and Emergency
Surgery (ESTES)

European Association for Endoscopic Surgery (EAES)

PRELIMINARY PROGRAM, subject to change

PARTICIPANTS WILL

- Improve clinical skills
- Establish priorities in diagnosis and treatment
- Recognize the evidence that supports decisions and interventions
- See real-life case presentations as examples
- Familiarize themselves with important diagnostic tests and therapeutic maneuvers
- Learn new interventions that may improve outcome

The course aim is to provide surgical residents and consultants with the information and skills needed for successful handling of nontraumatic visceral and gastrointestinal emergencies from arrival in the emergency room through transfer for definitive treatment to the operating room, intensive care unit or ward, with detailed attention to the decision-making process as well as to relevant surgical skills and techniques.

The following goals will be pursued:

- 1- Confront surgeons with different controversial scenarios
- 2- Provide concrete answers and guidelines for questions emerging from these situations
- 3- Develop skills to manage complicated issues

An application has been made to the EACCME for CME accreditation of this event.
