# Join us!

– towards better patient outcomes!

Welcome to the EFOA 2025 International Symposium! We are bringing together specialists from different countries to tackle the challenges the enteric fistula and open abdomen cases present.

Our goal is to create a collaborative environment where all delegates can openly discuss, learn from one another, and ultimately elevate the standard of care. These patients often face significant challenges, and our collective effort can make a real impact on their quality of life.

## Marja Boermeester

Amsterdam UMC  
Dept. of Surgery, Netherlands

## Tina Gaarder
